# How to close the battery cabinet in the computer room

## Overview

---

How do I close the battery lid?

Click Power Options. On the left side of the screen, click Choose what closing the lid does. For the When I close the lid setting, there are two categories: On battery and Plugged in. Select an option in the drop-down menu for each category.

How do I Stop my laptop from shutting down when closed?

Change your laptop's settings to prevent it from shutting down when you close the lid by accessing Windows Settings and selecting "Change what closing the lid does." Choose "Do Nothing" under the "On Battery" column if you want your laptop to stay awake while unplugged and with the lid closed.

How do you close a laptop lid on Windows 11?

To change the lid-closing action on Windows 11, open Settings > System > Power & battery, click the "Lid & power button controls" setting, and change the "Closing the lid will make my PC" settings for "Plugged in" and "On battery." "Do nothing" keeps the device running when closing the lid. "Sleep" puts the laptop on low power usage.

What happens if you close a laptop lid?

You can control the behavior and decide what you want to do, once you close the lid. Some man laptop users want to close the lid but do not want the laptop to get into sleep mode. Windows is built to respond to the closing of the lid by putting the computer into sleep mode. This saves battery, and the work can be resumed as soon as you lid up.

How do I change what my laptop does when the lid is closed?

Follow the steps below for how to change what your laptop does when the lid is closed. Open the Control Panel in Windows. See: How to open the Windows Control Panel. In the Control Panel, click System and Security. (If using the

Small icons or Large icons view, click Power Options and skip to step 4.) Click Power Options.

How do I shut down Windows 10 after closing the lid?

You should choose Shut down if you want to shut down Windows as soon as you close the lid. Select the desired option and click Save changes to save the settings. In a similar fashion, you can also Change what the Power Button does when you press it. See this post if Choose what closing the Lid does option is missing.
