

## SolarGrid Energy Solutions

# Huawei Guatemala City Mobile Energy Storage Power Supply

- LiFePO<sub>4</sub>
- Wide temp: -20°C to 55°C
- Easy to expand
- Floor mount&wall mount
- Intelligent BMS
- Cycle Life: $\geq$ 6000
- Warranty :10 years

## Overview

---

What is Huawei PowerCube?

To address this situation, Huawei offers PowerCube, an industry-leading hybrid power supply solution. Built along the lines of a Micro-Grid Energy System (MGES), it comprises four elements – power generation, control, monitoring, and energy storage.

What is Huawei energy storage system & monitoring system?

The energy storage system can employ a variety of energy storage methods and temperature control modes to maximize energy utilization, while the monitoring system supports Huawei in-band & out-band GPRS/IP transmission through NetEco and M2000 on the back end. Dual power.

What green energy solutions does Huawei offer?

Huawei provides a variety of green energy solutions, including solar scenarios that feature maximum power point tracking (MPPT) solar energy controllers, and hybrid solutions that combine renewable and conventional energies with specific energy-storage systems.

How much power does a mobile tower use?

In a site with multiple frequencies, maximum power consumption for the whole mobile tower will exceed 10 kW. At 10 or more frequency bands, site power consumption surpasses 20 kW. And in scenarios where multiple operators share a site, power consumption is doubled.

How does Huawei dual power work?

Huawei provides a dual-power solution that alternates power supply duties between the mains and batteries. Batteries are injected with special additives that raise their capacity for received current by up to 0.3C (C: capacity of batteries).

## Huawei Guatemala City Mobile Energy Storage Power Supply
