

## SolarGrid Energy Solutions

# Huawei Malaysia New Energy Storage Box

**LFP 48V 100Ah**

## Overview

---

Why is Huawei launching a solar & battery storage system in Malaysia?

As Malaysia accelerates towards its renewable energy goals, Huawei Malaysia is calling for more stringent national standards and stronger enforcement mechanisms to ensure a safer energy transition as the country deploys more solar and battery storage systems.

What will Huawei Malaysia do?

The third focus area of the collaboration is the joint cultivation of local talent in green energy technologies. Huawei Malaysia will play a key role in providing training in solar PV systems, battery storage, and electric vehicle (EV) charging technologies.

What will Huawei Malaysia do with solarvest?

Huawei Malaysia, meanwhile, will contribute its technological expertise and resources to ensure the success of these initiatives. The partnership will concentrate on three key areas: Integrating Huawei's smart PV technologies into Solarvest's ongoing and future renewable energy projects.

Are solarvest & Huawei working together to create a sustainable world?

KUALA LUMPUR, DECEMBER 10 2024 – With renewable energy as the direction towards a sustainable world as well as the nation's carbon emission goals, Solarvest Holdings Berhad and Huawei Technologies (Malaysia) Sdn Bhd (Huawei Malaysia) are set to work together to set new benchmarks in Malaysia's digital power and renewable energy landscape.

How can Huawei's smart PV technology improve Malaysia's energy resilience?

Integrating Huawei's smart PV technologies into Solarvest's ongoing and future renewable energy projects. Deploying solar-plus-battery energy storage systems (BESS) to enhance Malaysia's energy resilience and stability.

What is Huawei Malaysia doing to support Malaysia's growing green economy?

The third area of collaboration focuses on developing local talent in green energy technologies. Huawei Malaysia will take the lead in providing training on solar PV systems, battery storage, and electric vehicle (EV) charging technologies. This initiative will help build a skilled workforce to support Malaysia's growing green economy.
