# Huawei Solar Charging Inverter

## Overview

---

Building on decades of experience in large-scale commercial and utility solar, Huawei jumped into the residential solar market in 2018 with an efficient, lightweight hybrid solar inverter offering an impressive range of features at a competitive price. What is Huawei solar inverter?

Leading the Future of Smart Energy Solutions with Advanced Inverter Technology. Tested under extreme conditions, Huawei Solar Inverters are designed to ensure durability and reliable performance, delivering consistent energy output regardless of the environment.

Why should you choose a Huawei inverter?

Huawei inverters offer high efficiency, reliability, and smart management features for optimal solar performance. Rigorously tested and certified, they ensure smooth operation under demanding conditions, making them the ideal choice for maximising solar energy production.

Why should you buy a Huawei sun2000 10kTL inverter?

Thanks to these integrated MPPTs, the Huawei SUN2000-10KTL inverter maximizes the efficiency of the solar panels so that the investment made is amortized more quickly since maximum energy is offered to the home at all times depending on the number and type of solar panels installed and the solar radiation they are receiving.

Is Huawei a hybrid inverter?

Then, only two years later, Huawei released the second generation residential hybrid inverter, a new compact optimiser, a range of 3-phase hybrid, and large commercial inverters with advanced capabilities. Huawei pronounced “Hua-Way” is a Chinese communications and technology company mainly known for its mobile phones.

Are Huawei string inverters a good choice?

Considering Huawei built their reputation on larger scale 3-phase string inverters, it is no surprise that they offer a wide range of efficient, intelligent commercial and utility-scale string inverters from 8kW up to an impressive 330kW.

Which solar inverter is compatible with Huawei luna2000 battery system?

Like the first-generation inverter, the new FusionSolar SUN2000-L1 series is a hybrid or battery-ready inverter compatible with the LUNA2000 Huawei battery system described in detail below. The SUN2000L inverters allow very short strings of 4 panels and the flexibility to function with or without optimisers (more about optimisers below).
