

## SolarGrid Energy Solutions

# Huawei photovoltaic inverter 800v

## Overview

---

What is the Huawei SUN2000L 3.68KTL-L1?

The Huawei SUN2000L 3.68KTL-L1 is an advanced solar inverter from Huawei. It is part of Huawei's solution for C&I and residential customers, based on the 'Optimal Electricity Cost and Active Safety' concept. Huawei has helped to power millions of residents and hundreds of industries globally by improving the utilization of solar power with high efficiency inverter topology (Max. Efficiency 98.4%).

How does the Huawei inverter work?

Thanks to the integrated 800V high-voltage battery connection, the inverter can be expanded with the Huawei battery. The optional Huawei Smart Meter is connected via the integrated RS485 interface and provides information about home consumption and the grid feed-in. This means that the inverter can also implement dynamic power reduction.

What is Huawei 100kW solar inverter?

The Huawei 100KW Solar inverter, DC switch integrated, safe and convenient for maintenance, Natural cooling technology. Max. efficiency 99.0%, Protection degree of IP65. Three-Phase Network Connection Inverter is ready to be installed in homes that are powered by three-phase current.

How does the Huawei Smart Energy Center work?

The Huawei 3-phase inverter is the interface for the Huawei Smart Energy Center. Thanks to the integrated 800V high-voltage battery connection, the inverter can be expanded with the Huawei battery. The optional Huawei Smart Meter is connected via the integrated RS485 interface and provides information about home consumption and the grid feed-in.

What is a sun2000 8-10K lc0 inverter?

HUAWEI SUN2000-8-10K-LC0, a more powerful inverter for you to run your

home on green energy. It provides active safety, a 25-year engineered service life with enhanced protection and future-ready whole home backup solution.
