What is a Hytera repeater base station?

Hytera repeater base stations are sometimes linked together to further extend the range of communication for your team. This can be done via cabling, a radio link or network using digital technology. Features vary on every Hytera repeater base station from integrated data applications to analogue and digital migration capabilities.

What is a 300w power supply?

Power supply unit with fan control circuit (220 W) Automatic switchover to battery in case of power failure (lead-acid battery not included in the kit). 300W External power supply designed for mobile radios and repeaters.
