Indonesia Surabaya Energy Storage Lithium Battery Manufacturer

Overview

Will PT Rept battero build a battery factory in Indonesia?

Image: REPT via LinkedIn Chinese battery manufacturer Rept Battero has announced plans to develop an 8GWh gigafactory in Indonesia specialising in lithium-ion cells for battery energy storage systems (BESS). Rept Battero's non-wholly-owned subsidiary, PT Rept Battero Indonesia, will invest in and construct the Indonesian Battery Factory.

Why is Indonesia a leader in the lithium battery industry?

In 2024, Indonesia stands at the forefront of the rapidly evolving lithium battery industry, catalyzed by its significant reserves of raw materials essential for battery production and a growing focus on renewable energy sources. As Southeast Asia's largest economy, Indonesia has strategically positioned itself as a.

How will Greenway develop a lithium battery factory in Indonesia?

In terms of technological capabilities, Greenway will inject its globally leading lithium battery technology and PACK production expertise into the Indonesia factory. Using this as a starting point, the company aims to gradually achieve localized production of battery cells.

Is battery storage taking off in Indonesia?

Despite the opportunities for manufacturing, from a deployment perspective, battery storage has not yet taken off in Indonesia beyond a handful of projects, including a 5MW pilot announced by the government in March 2022. Rept Battero has announced plans to develop an 8GWh gigafactory in Indonesia specialising in lithium-ion cells for BESS.

How many GWh will Indonesia's battery factory produce?

The first phase of the Indonesian battery factory is expected to achieve an annual production capacity of 8 GWh of lithium-ion batteries and components.

Hong Kong-listed REPT Battero has announced plans to invest in a new battery production facility in Indonesia.

Who is PT Indo Energi Elektrik?

PT. INDO ENERGI ELEKTRIK started in Indonesia in 2018. The company is engaged in research and development, production and sale of energy distribution systems, standard lithium battery modules, a lithium battery energy storage system (ESS), a battery management system (BMS) and a power location platform.
