Installation of photovoltaic panels on iron tile roof

Overview

Can you put solar panels on roof tiles?

Putting solar panels directly on top of tiles is a no-go — they'll break. Drilling through the tiles may result in damage to the underlayment, the base layer of your roof. Some installers choose to take out specific roof tiles and put in special mounts for the solar panels or even add a racking system.

What is a fully integrated photovoltaic roof?

Figure 1. Fully integrated photovoltaic (PV) roof "RIS." The solutions that have been proven fall into the following categories: Interlocking panel systems, which either use panels that mimic roofing tiles with the photovoltaic (PV) element embedded in the surface or have a frame bonded to the PV panel which provides the sealing interlock.

How do I choose a solar panel installer?

1. Find a good installer. Experience and competence are especially important with tile roofs. Maintain open communication with your solar panel installer throughout the process. It should be clear who is responsible for the damage caused to the tiles that may during the process. 2. Check the warranties.

Can a PV system be used on a roof?

Most types of roof have been used with a PV system at some time. The overall construction must be capable of taking the additional load of the PV (or indeed survive the additional uplift when the PV replaces a much heavier roof surface such as concrete tiles).

Should PV panels be over-roof mounted?

The over-roof mounting of PV panels has been the normal practice in many installations. It is simple in concept, and has been proven provided that the attachment through the traditional roof is performed well.

Can a PV tile be used with a slate roof?

The use of tiles or slates frequently requires special tiles for edges, angled valleys, chimney joins, ridges, etc. and slates are generally cut to shape on site, and nail holes made to suit. This implies that the PV tile must link seamlessly into the standard roofing material (Fig. 3). Figure 3. Photovoltaic (PV)-Slate “traditional” system. 1.2.
