Inverter water pump model price

Overview

What is a solar water pump inverter?

SI22 solar water pump inverter is cost-effective and economical, small and exquisite, palm-sized, greatly saving installation space and transportation costs. Solar pumping system converts solar energy directly into electric energy, and then drives motors to drive water pumps to pump water from deep wells, rivers, lakes and other water sources.

Which solar water pump inverter is best?

With modular design and IP65 protection, VEICHI SI30 solar water pump inverter is highly praised by customers. SI22 solar water pump inverter is cost-effective and economical, small and exquisite, palm-sized, greatly saving installation space and transportation costs.

What is veichi SI series solar water pump inverter?

VEICHI SI series solar water pump inverter is a high-efficiency solar water pump controller which can make full use of solar energy to drive water pumps for agricultural irrigation, water supply system, fountains, ground water lowering and etc.

Who makes smart water pump inverter?

winverter is smart water pump inverter produced by PEModule. PEModule is an Egyptian leading company in Industrial Power Electronics Research and Product Development. it provides its research, design, and manufacturing services to hundreds of factories and universities in the Middle East and North Africa region.

Which solar water pumping controller is best?

As the solar water pumping system is eco-friendly and economical, VEICHI SI series solar pumping controllers of high MPPT efficiency have been widely used in manay areas such as Africa, India, Middle East, Southeast Asia, South

Asia, America and more areas.
