

SolarGrid Energy Solutions

Irish state-owned enterprise new energy battery cabinet

Overview

Irish state-owned utility ESB on Friday inaugurated a 150-MW/300-MWh battery energy storage system (BESS) at its Aghada site in County Cork as part of its EUR-300-million (USD 317m) investment in battery projects at sites in Dublin and Cork. Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

Are battery energy storage systems a 'great achievement' in Ireland?

ESB Networks described the project as a "great achievement for battery storage" in Ireland. Battery energy storage systems, often referred to as Bess, are regarded as a vital part of the Ireland's fledgling renewable energy sector and demand for them has never been higher.

What is ESB's new battery energy storage system?

This specific battery energy storage system is the largest site of its kind in commercial operation in Ireland and is part of ESB's pipeline of projects, worth up to €300m in investments, that aim to be delivered at sites in Dublin and Cork. This project has a capability of providing 75MW of energy for two hours to Ireland's electricity system.

Which ESB site is the largest in Ireland?

According to the Dublin-based, state-owned energy company, the battery energy storage system (BESS) is currently the largest site of its kind in commercial operation in Ireland. The site is the latest in ESB's project pipeline, consisting of sites in Dublin and Cork, representing an investment of up to €300 million (\$323 million).

Will a new battery plant support Irish grid stability?

In a bid to support Irish grid stability, Electricity Supply Board (ESB) has opened a major battery plant at its Poolbeg site in Dublin, which will add 75MW/150MWh of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.
