Japan Osaka Energy Storage Power Supply Customized

Overview

Does Japan have a power storage company?

REUTERS/Toru Hanai/File Photo Acquire Licensing Rights June 7 (Reuters) - Japan's Itochu Corp (8001.T) said on Wednesday it has jointly established a power storage company with Osaka Gas Co (9532.T) and Tokyo Century Corp (8439.T), as the country's expansion in renewable energy drives demand for storage capacity.

What is Itochu & Osaka Gas?

With this business, ITOCHU will design and supply energy storage system and power conditioners from its own procurement network, and will also build and maintain an optimal storage system. Osaka Gas will oversee trading in the energy market and control of the storage plant by utilizing its knowledge of the energy trade.

Why is Itochu working with Osaka Gas & Tokyo century?

ITOCHU will work on this business together with Osaka Gas and Tokyo Century to ensure that the balancing power produced through this business can contribute to the further introduction and stable supply of renewable energy. Open area within the OSAKA GAS NETWORK CO., LTD. Senri Supply Center grounds.

When will large-scale lithium ion storage batteries be launched in Osaka?

The joint venture would start construction of large-scale lithium ion storage batteries in Osaka prefecture in the first half of the current fiscal year, to be launched in the fiscal year of 2025, Itochu said in a statement.

How many megawatts will the Tokyo century project have?

The project will have capacity of 23 megawatt hours and output of 11 megawatt, for which Itochu would provide storage batteries and construction, Osaka Gas would trade the power and Tokyo Century would do business

management.

How will Itochu contribute to the stabilization of Japanese electric systems?

By using the energy from these energy storage batteries in the wholesale electricity market, the balancing market, and the capacity market, ITOCHU will contribute towards the stabilization of Japanese electric systems. Installation will begin in the first half of FY2023 and operations are expected to begin in FY2025.
