

## SolarGrid Energy Solutions

# Kampala Telecom Base Station

## Overview

---

Due to the widespread installation of Base Stations, the power consumption of cellular communication is increasing rapidly (BSs). Power consumption rises as traffic does, however this scenario varies from ge.

How many 3G base stations are there in Kampala?

The big red network currently has over 300 3G base stations according to their website which cover most areas in Kampala, plus up country major towns like Makasa, Mbarara, Kitgum, Arua, Gulu, Kumi, Mbale, Busia to mention but a few (see map below).

Does Smart Telecom have a map of Kampala & Entebbe?

With no coverage map on their website, Smart Telecom is still new in the game, offering 2G and 3G mobile voice and data services in Kampala and Entebbe. They also have national roaming agreements with UTL so where they lack in coverage, UTL compensates.

Who is Smile Communications Uganda?

Smile Communications Uganda is a 4G-LTE high-speed data network provider, currently covering most parts of a Kampala, Entebbe and Mukono including the respective highways.

Does K2 Telecom have a 2G network in Karamoja?

On the 2G side, they are the only major carrier that have not explored the Karamoja region. For purposes for transparency it should be mentioned that all K2 Telecom customers ride on the Africell Network so the coverage is the same. This is what I would call an 'on the down-low' network.
