# **Kazakhstan Almaty New Energy and Energy Storage Policy**

## Overview

---

What is the energy policy of Kazakhstan?

The energy policy of Kazakhstan aims to achieve energy independence through maximum use of its cheap, low-grade coal for electric power production.

How much money does Kazakhstan invest in energy?

The initiative is a significant milestone in Kazakhstan's energy strategy, with an estimated investment of 13.5 trillion tenge (US\$25.5 billion), including 6.2 trillion tenge (US\$11.7 billion) for energy sector modernization, 6.8 trillion tenge (US\$12.8 billion) for utilities, and 602 billion tenge (US\$1.12 billion) for automation.

How will Kazakhstan's energy sector modernize by 2029?

ASTANA—Kazakhstan's energy sector is embarking on a major modernization initiative by 2029. According to an analytical piece by Kazinform, the initiative will address aging infrastructure, tariff policies and rising demand, focusing on sustainability and equitable solutions.

How big is Kazakhstan's Energy network slated for modernization?

"The volume of networks slated for modernization spans 80,000 kilometers—equivalent to two equators," said Sergey Agafonov, the chairman of the Kazakhstan Association of Energy Supply Organizations, highlighting the project's scale.

Should Kazakhstan address energy deficiency?

It is necessary to address Kazakhstan's energy deficiency and intensity of the economy, which in 2022 was 3.2 times higher than that of Organisation for Economic Co-operation and Development (OECD) nations and nearly double the global average.

## What is Kazakhstan's government doing in Almaty?

Some of the force is guarding government facilities in the capital, Nur-Sultan, which "made it possible to release part of the forces of Kazakhstani law enforcement agencies and redeploy them to Almaty to participate in the counter-terrorist operation," according to a statement from Tokayev's office.
