

**SolarGrid Energy Solutions**

# **Korean new solar lighting**

## Overview

---

What is the new solar project in South Korea?

The new plan comes on top of a scheme launched in late March to deploy solar using railway infrastructure. The Korean government expects private developers will build solar plants on the highways' idle sites for a combined capacity of 243 MW by 2025. A PV project built along a highway in South Korea.

Who is Sun Energy led?

GIMHAE, South Korea, May 11, 2021 /PRNewswire/ -- Sun Energy LED Co., Ltd. is a Korean LED lighting manufacturer leading the science of new and renewable energy by combining solar and LED lighting technology, a new growth green industry. The company is continuously expanding its horizons in renewable energy science in Korea.

What is solar hybrid street light?

The production has been installed in elementary, middle, high schools and public parks in Korea to great effect in terms of environment and education. Solar Hybrid Street Light uses a high-efficiency single crystal solar cell that has passed CE and ROHS certification, and demonstrates 50-70% energy savings compared to conventional street lights.
