## Overview

---

We tested the best portable power stations from Anker, Goal Zero, Bluetti, EcoFlow, and more to find the perfect unit for you to cut the cord with. Support us! What is the best portable power station for home backup?

No one wants to sit in the dark, especially when a reliable backup can keep everything running smoothly. After testing and comparing, the best portable power station for home backup is the EF ECOFLOW DELTA 2 Max Portable Power Station. It charges fast, powers most home essentials, and holds up over time. Power outages aren't just annoying.

Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

Can a power station be used as a home backup system?

Larger power stations can double as home backup systems (Anker F3800, Goal Zero Pro 4000), and used to run either small or entire portions of your home. For true integration, you'll need to buy a power panel kit and hire an electrician to install it.

What is a 3600wh backup power source?

It's designed for those who need a high-capacity, fast-charging backup power source that can support both everyday use and emergency scenarios. With its 3600Wh capacity, this unit can power a range of essential devices and home appliances for extended periods.

What is a good backpack for a power station?

It's not packed with bells and whistles, and its looks are throwback to bit-mappy 1980s tech, but if you're getting into the power station game, this is as good a place as any to start. Weighing in at slightly more than 6 pounds, the

JuiceGo is another good candidate for a backpack.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.
