Will China build a 5G base station next year?

Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

Who checks a 5G base station in Xiangyang?

A China Mobile employee checks a 5G base station in Xiangyang, Hubei province. [Photo by Yang Tao/For China Daily] Plan is to establish high-speed, smart, green, safe and digital infrastructure.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.

Will China build a 5G network in 2021?

"By the end of the 14th Five-Year Plan period (2021-25), China will have built the world's largest and most extensive stand-alone 5G network and basically achieve full network coverage in urban and rural areas," Wang said. Ding Yun, president of Huawei Technologies Co's carrier business group, said: "5G is no longer for early adopters."

Who are China's 5G operators?

Chinese main operators are China Mobile, China Telecom and China Unicom. In addition to its expected expansion in the 5G field, China noted that it is also set to begin trials for 10-gigabit optical networks and enhance computing

power infrastructure, reflecting the growing demand for artificial intelligence (AI) technologies.

What will China do with the 5G push?

Alongside the 5G push, China will also start trials for 10-gigabit optical networks and optimize computing power centers amid an artificial intelligence (AI) boom brought on by ChatGPT.

## Lilongwe Communications has installed several new 5G base station

---

### China claims to have installed 700,000 5G base stations this ...

Nov 13, 2020 · For complete 5G coverage across the country, China will need to install 10 million 5G base stations, which will require an investment of around 2 trillion yuan (\$280 billion).

### 5G base stations to proliferate widely
