What is advanced battery management system (BMS)?

Advanced Battery Management System (BMS): Equipped with a built-in BMS, the system monitors critical pack and cell information, including voltage, current, and temperature. It also balances cells during charging and discharging, effectively extending the battery's cycle life.

Who is cell Supply SA?

Discover the future of energy storage with Cell Supply SA, one of South Africa's premier supplier of LiFePO4 cells. We provide high-performance lithium solutions for diverse applications. Explore our top-quality lithium cells today.

Do lithium batteries need maintenance?

Lithium batteries charge up to 3 times faster than and lead acid and the integrated battery management system protects the cells from over/under voltage as well as extreme temperatures. Lithium batteries are sealed units and require no maintenance once they have been installed.

What is the best lithium battery chemistry?

Lithium Iron Phosphate - LFP - Lifep04 The best lithium battery chemistry for the majority of our applications is Lithium Iron Phosphate, shorted to LiFePO4 or LFP batteries. This new technology lasts longer and can be put through deeper cycles. They also require no maintenance or venting, unlike lead-acid batteries.

Does potensa have a reputable battery supplier?

Potensa has agencies with several reputable suppliers in the battery industry. We work hard to maintain and grow our relationships with all our partners to ensure that we can deliver high-end, industry-leading battery brands to our customers.
