# **Lithium power station factory in Angola**

## Overview

---

Who owns Namibe Lithium Project in Angola?

Australian-based mineral exploration company, Tyranna Resources, will acquire an 80% interest in the Namibe Lithium Project in Angola. The Acquisition is expected to be finalized by July 2022, positioning the company as the majority owner of the project.

Could Tyranna Resources put Angola's lithium resources in the limelight?

However, Australian Securities Exchange (ASX)-listed junior Tyranna Resources may put Angola's lithium resources in the limelight. In mid-May the company struck a deal to buy 80% of Australian company Angolan Minerals, which has been quietly exploring the Namibe lithium project in the southwest of the country.

How many non-listed companies are launching lithium projects in Angola?

Up to now, only a few non-listed companies have launched lithium projects in the country. Tyranna has confirmed that initial data from Angolan Minerals, from field campaigns in 2019 and 2021, has been encouraging. Further studies may begin soon.

Are Angola's lithium resources in the limelight?

The mineral is essential for the manufacture of batteries, a key element in the energy transition, and has become highly sought after. However, Australian Securities Exchange (ASX)-listed junior Tyranna Resources may put Angola's lithium resources in the limelight.

What is the Namibe Lithium Project?

The Namibe Lithium Project, which includes the Giraul pegmatite field, is a 207 m<sup>2</sup> area that has only been explored to the extent of about 10% since its discovery in the 1960s. The company believes that the lithium reserve potential is significant.

Is Angola a good place to invest in lithium?

Despite boasting extensive and diverse mineral resources, up to now there has been limited international investment in Angola's lithium in comparison to its neighbours, such as the DR Congo, Namibia, Zimbabwe and Botswana.
