# **Majuro Emergency Lighting Lithium Battery Pack**

## Overview

---

What batteries are available for emergency lighting units?

VRLA Emergency Lighting Battery Packs, assembled in-house using 6v or 12v VRLA batteries, various styles and capacities available. List of Lighting Units that we may be able to supply replacement batteries and battery packs for. For reference only. List of emergency lighting battery part numbers. For reference only.

What are emergency lighting batteries & battery packs?

Emergency Lighting batteries and battery packs, Ni-Cd and Ni-Mh battery packs, replacement batteries for lighting units that illuminate when the power cuts out. VRLA Emergency Lighting Battery Packs, assembled in-house using 6v or 12v VRLA batteries, various styles and capacities available.

What is a led emergency backup lighting kit?

The led emergency backup lighting kit product consists of a high performance LIFEP04 battery pack with excellent thermal and chemical stability, making it safer than lithium ion batteries that use alternative cathode materials.

What are emergency lights with battery backup?

Emergency lights with battery backup is a device used during the power outage when all the lights of a building or an apartment suddenly switch off. In that scenario, the emergency light backed up by the battery switches on.

What is the difference between lead-acid and Li-ion emergency light batteries?

The Li-ion Battery is more efficient and has better output than the Lead-Acid Emergency Light Battery. This is basically due to the low discharge rate of Li-ion batteries, high energy density, and low memory effect. As told earlier, the lifespan of Li-ion batteries is pretty higher.

Are lithium-ion batteries better than other emergency lights?

Apart from that, there are other things too. Lithium-Ion batteries unlike other batteries are costly. From the above discussion, it is clear that the Emergency Light backed up by the Lithium Ion (Li-ion) batteries are far better than the other Emergency Lights backed up by some other kind of batteries.
