

## **SolarGrid Energy Solutions**

# **Manila New Energy Photovoltaic Energy Storage Enterprise**

## Overview

---

Where in the Philippines will a solar power plant be located?

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system (BESS).

Why is mterra solar investing in the Philippines?

With this financial backing, MTerra Solar aims to accelerate its solar infrastructure projects, strengthening the Philippines' energy security while reducing dependence on fossil fuels. As the country moves toward cleaner energy solutions, how do you see the role of large-scale solar investments shaping the future of power generation?

.

Who owns 100% of Solar Philippines?

The transaction with Solar Philippines New Energy Corporation, which currently owns 100% of the project, was announced at a signing ceremony in Pasig City, Philippines, attended by Torbjorn Caesar, Chairman and Senior Partner at Actis, Manuel V. Pangilinan, Chairman of Meralco, and Emmanuel V. Rubio, CEO of Meralco PowerGen (MGen).

What is the largest solar farm in the Philippines?

The 63.3MW Calatagan Solar Farm, which was the largest in the country when it was commissioned in 2016. Image: Solar Philippines. The Board of Investments (BOI) in the Philippines has given a 'green lane certificate' for a solar and storage project said to be the largest in the world, enabling it to proceed at a quicker pace.

Will Terra become the largest integrated photovoltaic power station in Southeast Asia?

This project marks a significant milestone as Terra is poised to become the largest integrated photovoltaic and energy storage power station in Southeast Asia.

What is the impact of a solar power project in the Philippines?

The project has strong sustainability credentials, notably because of its impact in decarbonising the Philippines' energy system (SDG7), but also by generating power to support economic development (SDG8), creating more than 10,000 new jobs (SDG8), and facilitating local development (SDGs3+4).
