Middle East Mobile has more than 100 5G base stations

Overview

How many 5G networks are there in the Middle East?

This includes eight in the Middle East and 10 in Africa. The first full commercial 5G mobile service in the MEA region was introduced by Etisalat in the United Arab Emirates (UAE) in May 2019, followed closely by its domestic rival Du the following month.

Who is the largest 5G provider in Saudi Arabia?

The largest 5G provider in Saudi Arabia—and the MEA region—is Saudi Telecom Company (stc), which claimed 5.6 million 5G subscriptions by December 2022. Having inked network rollout agreements with equipment suppliers like Huawei, Nokia, and Ericsson, stc has more than 75 cities and towns in its 5G footprint.

Does Dubai have 5G?

In May 2019, with 5G-capable handsets now available to UAE customers, the Etisalat network was opened for full mobile use. By February 2023, the 5G network served all main urban areas and many connecting highways, including Abu Dhabi, Dubai, Sharjah, Fujairah, Ras Al-Kaimah, and Umm Al-Quwain, with a population coverage of 97%.

How many countries are served by 5G?

He has a particular interest in wireless broadband and was responsible for TeleGeography's 4G Research Service until it was integrated into GlobalComms. According to the latest data from our GlobalComms Database Service, as of March 2023, 18 countries in the Middle East and Africa region are served by commercial 5G services.

Who is the biggest 5G provider in Africa?

The second biggest 5G operator is Mobily, also from Saudi Arabia, which had almost 3.3 million subscriptions by end-2022. In third place is Africa's largest

fifth-generation provider, Vodacom South Africa, with around 2.7 million.

Which country has the most 5G users?

The MEA market with the most 5G users is Saudi Arabia, with over 11.2 million subscriptions at the end of 2022, equivalent to more than a quarter of the total mobile sector. It's well ahead of second-place South Africa, which had an estimated 5.0 million 5G subscriptions on the same date. The region as a whole is home to 31.4 million 5G users.
