Overview

What is a power generating station?

The simple answer is a power generating station, also known as a power plant, usually someplace far away. But the reality is much more complicated than that. Generation is only the first of many steps our power takes on its nearly instantaneous journey from production to consumption.

What is hybrid power station?

For green living while ensuring stable off-grid power source, Hybrid Power Station integrates diesel generator set (gas generator set for optional), solar power, battery storage and hybrid solar inverter in one secure unit. It helps customers realize solar self-consumption, rate arbitrage and more importantly, power independence.

What is MPMC hybrid power station?

MPMC Hybrid Power Station is a reliable resilient / prime energy solution mainly developed for independent power. For green living while ensuring stable off-grid power source, Hybrid Power Station integrates diesel generator set (gas generator set for optional), solar power, battery storage and hybrid solar inverter in one secure unit.
