

## SolarGrid Energy Solutions

# Modular uninterruptible power supply in Krakow Poland

## Overview

---

What is uninterruptible power supply system modernisation?

Uninterruptible power supply system modernisation, removing broken or worn-out equipment together with batteries and other infrastructure, disposal, vertical and horizontal transportation services. We cooperate with various suppliers of components and devices.

Who offers UPS (uninterruptible power supplies)?

Siltec offers UPS (Uninterruptible Power Supplies) from renowned global companies, such as ABB and Delta Electronics. We provide our clients with the latest models of devices dedicated for both small, medium and large Data Centers, as well as office, commercial, technical and industrial environments.

What are the key factors affecting the power supply industry in Poland?

When exploring the Power Supply industry in Poland, several key considerations are essential for comprehensive understanding. The regulatory landscape is crucial, as Poland adheres to EU directives, which influence energy production standards, emissions, and renewable energy targets.

How a power supply is supplied?

Power can be supplied from one or two inputs. In case of one input, if voltage at the input is available, power is transferred either via double conversion channel or via bypass channel from input to output. When input voltage is disconnected, load continues to be supplied from accumulator battery and voltage source inverter.
