Naypyidaw Gigawatt Solar Project

Overview

How many megawatts of electricity will Naypyitaw's solar projects produce?

The solar projects have a combined capacity of 390 megawatts of electricity and will be ground-mounted and floating solar facilities at Yan Aung Myint, Chaung Ma Gyi and Phaung Laung reservoirs in Naypyitaw, the abode of military generals, according to leaked documents from the MOEE.

How many solar power plants are there in Myanmar?

Solar power system in operation. A total of 11 solar power plant projects are currently under construction and development across Myanmar, with an installed capacity of 1,026 megawatts, according to the Electricity and Energy Development Commission.

How many solar projects are being built in Mandalay?

Among these, four projects are being built in the Union Territory of Nay Pyi Taw, three in Mandalay Region, one in Bago Region, and one in Shan State, collectively contributing 530 megawatts. Hybrid (Gas Engine + Solar) projects are underway in Mandalay Region and Magway Region, with a combined installed capacity of 496 megawatts.
