

## SolarGrid Energy Solutions

# New Delhi Outdoor Solar System Application

## Overview

---

What is Delhi solar portal?

Delhi Chief Minister Atishi has launched the Delhi Solar Portal, a single-window platform aimed at simplifying the installation of rooftop solar panels in the city.

Why is Delhi CM Atishi launching a solar portal?

Delhi CM Atishi launches the Solar Portal to simplify rooftop solar installations, offering subsidies and incentives for residents to reduce power bills.

Does Delhi have a potential for rooftop solar?

This is because due to the dearth of space, the scope for utility-scale solar projects in the city is limited. But, the potential for rooftop solar on the other hand is very high. Studies have shown that Delhi has over 2.5 GW of potential in the rooftop solar segment.

What is Delhi solar policy?

All government buildings with an area of 500 sq. m or above will have to install solar panels in the next 3 years. The policy also encourages new deployment models including community solar and Hybrid RESCO that help in overcoming space and financial constraints of solar installation. (Read More about Delhi Solar Policy [here](#)).

How much subsidy is available for solar in Delhi 2025?

In a major push to mainstream solar energy, the Delhi Government 2025 approved an additional subsidy of ₹30,000 — that's ₹10,000 per kW for residential solar installations. This is in addition to the existing central government subsidy of up to ₹78,000 under the PM Surya Ghar: Muft Bijli Yojana, bringing the total possible subsidy to ₹1.08 lakh.

Is Delhi a good place to install solar panels?

Central Government Subsidy: Up to ₹78,000 under the PM Surya Ghar scheme. Total Support: Up to ₹1,08,000, making Delhi the most financially supportive region for residential solar in India. For example, if you install a 1 kW solar system, you'll get ₹10,000 from the Delhi Government alone, reducing your upfront cost significantly.
