

**SolarGrid Energy Solutions**

**No 1 in energy storage battery  
industry**

## Overview

---

Tesla retained its top spot for the second year-in-a-row as lead producer in the battery energy storage system (BESS) integrator market with a 15% market share in 2024, according to Wood Mackenzie's Global battery energy storage system integrator ranking 2025 report. What are the best battery energy storage companies?

When it comes to the 10 Best Battery Energy Storage Companies, industry leaders like BYD, Tesla, MANLY Battery, and CATL set the benchmark with cutting-edge technology and global market dominance.

What are the top 10 battery manufacturers in 2024?

Among the top 10 global battery manufacturers (power + energy storage) in 2024, six are Chinese companies: CATL, BYD, EVE Energy, CALB, Gotion High-Tech, and Sunwoda. Three South Korean companies—LG Energy Solution, Samsung SDI, and SK On—along with Japan's Panasonic also made the list. Part 1. Breakdown of the Top 10 Battery Shipments in 2024.

Who makes energy storage batteries?

Below are ten of the most influential energy storage battery manufacturers worldwide, covering a wide range of applications from residential to commercial and grid-level storage. The list is in no particular order: 1. CATL (Contemporary Amperex Technology Co., Limited) – China One of the largest manufacturers of lithium-ion batteries globally.

Why is Tesla a key player in the global battery storage market?

Through its innovative solutions and strategic expansions, Tesla remains a key player in the global battery storage for renewable energy market. MANLY Battery is one of China's leading Battery Energy Storage Companies, known for its extensive experience in producing high-quality energy storage lithium battery solutions.

Who are Manly batteries?

With over 13 years in the industry, MANLY has built a strong reputation as a trusted battery energy storage manufacturer, providing a range of products from home energy storage batteries to industrial-scale battery energy storage systems.

How many energy storage lithium battery projects are planned?

Over 78 energy storage lithium battery-related projects have been planned nationwide, representing a significant investment of CNY 569.861 billion and a planned construction capacity of approximately 1.4 TWh. Renewable energy installations coupled with energy storage systems.
