# **North American outdoor power prices**

## Overview

---

Who makes outdoor power equipment?

The U.S. market for outdoor power equipment is populated with several global and country manufacturers, leading to a high frequency of product launches. For instance, in February 2023, Ariens, a brand of AriensCo, launched the RAZOR walk-behind mower.

Which country has the largest outdoor power equipment market in 2023?

The U.S. accounted for 25.33% of the revenue share in the global outdoor power equipment market in 2023. The country is witnessing a shift towards greener and more efficient offerings to comply with government regulations and lower the emissions caused by conventional gas-powered equipment.

How many electricity and natural gas hubs are there in North America?

Currently, electricity products can be traded at more than two dozen hubs and delivery points in North America, and natural gas products can be traded at more than 120 hubs. The data posted under EIA's agreement with ICE represent seven major electricity hubs and their corresponding natural gas trading hubs.

Why is outdoor power equipment so popular?

The current trends of remote and hybrid working models, as well as flexible working hours among businesses in the U.S., have ensured that people have more free time on their hands to indulge in gardening and landscaping, thus strengthening the U.S. market demand for outdoor power equipment.

Which segment dominated the outdoor power equipment market in 2023?

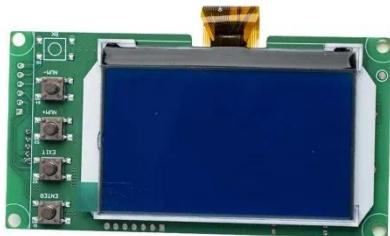

The residential segment held a larger share in the U.S. outdoor power equipment market in 2023, owing to increasing sales of products such as lawn mowers, chainsaws, and trimmers to homeowners.

What data does EIA provide about natural gas prices?

The data posted under EIA's agreement with ICE represent seven major electricity hubs and their corresponding natural gas trading hubs. This market information includes daily volumes, high and low prices, and weighted-average prices. Natural gas historical data are available back to March 2014.
