

**SolarGrid Energy Solutions**

# **North Macedonia energy storage project electricity price subsidy**

## Overview

---

The €80 million comes as subsidies for household electricity bills, support for small and medium-sized companies to maintain business continuity, as well as state investments for energy transition, renewable energy sources and energy efficiency. How does North Macedonia generate electricity?

North Macedonia has historically relied on hydropower for a significant portion of its electricity generation. The country has utilized its rivers to develop hydropower plants. There have been also efforts to harness wind energy, and several wind projects have been proposed or are under development.

Who regulates the energy sector in North Macedonia?

Energy Regulatory Commission (ERC): The Energy Regulatory Commission regulates and oversees the energy sector in North Macedonia. ERC is responsible for ensuring fair competition, consumer protection, and adherence to legal and regulatory standards. 3.

Is North Macedonia a state-owned power company?

North Macedonia's state-owned power company was unbundled and partially privatized in the early 2000s. Austrian utility company EVN has been responsible for electricity distribution in North Macedonia since entering the market in 2006.

What changes did North Macedonia make to its energy policy?

While there were no other major energy legislative changes, North Macedonia continues to harmonize its energy sub-regulations with the EU Energy Community's Third Energy Package (TEP).

What if North Macedonia used its technical potential?

As we can see, if North Macedonia would use its entire technical potential, it would increase the generating power by 321%. North Macedonia has calculated a potential emission reduction of 30% by 2030. Greenhouse gas

emissions in N. Macedonia are in 2016 around 11Mtons of CO2 and in energy sector 7,66Mtons of CO2 equivalent.

Will North Macedonia transpose a security of supply statement?

Transposition is envisaged by the new draft Energy Law that is out to public consultation. North Macedonia delivered the last Security of Supply Statements to the Secretariat in 2019, with updates in 2020, without reporting on the electricity sector. According to Article 29 of the Treaty, the statement must be updated every two years.
