

**SolarGrid Energy Solutions**

# **One megawatt container automatic generator**

## Overview

---

What are mg containerized gensets?

MG containerized type gensets use advanced sound-absorbing materials, scientific and unique design in airflow and noise control. The container is with CSC certification, in line with international container security convention, ensures shipping directly as a standard container, and greatly saves the cost of transportation.

What is a QEC generator?

It is a flexible power solution for loads that exceed the output capability of a single generator set. This type of power management system PREDICTABLE POWER The Atlas Copco QEC generators packs a punch, up to 1 megawatt of containerized power that can be easily transported from one worksite to the next.

What size genset container do I Need?

The container is fixed with an inspection door at each side, also equipped with a ladder outside for easy inspection and maintenance. -According to genset dimension, below 1000 KVA, it will use ISO 20'ft GP or HQ container and 40' HQ container for above 1250KVA.

Why should you buy a MG genset?

The container is with CSC certification, in line with international container security convention, ensures shipping directly as a standard container, and greatly saves the cost of transportation. MG gensets adopt the world famous brand engines and alternators, to ensure strong power and reliable performance.
