

**SolarGrid Energy Solutions**

# **Philippines Photovoltaic Energy Storage Project**

## Overview

---

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system (BESS). Where in the Philippines will a solar power plant be located?

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system (BESS).

Who owns mterra Solar Philippines?

Terra Solar Philippines, Inc. (TSPI), together with Meralco PowerGen Corporation (MGEN) and SP New Energy Corporation (SPNEC), officially broke ground for the MTerra Solar Project — the world's largest integrated solar and battery storage facility.

Is Terra solar the world's largest integrated solar & battery facility?

Philippines renewable energy companies have broken ground on the 3.5 GW Terra Solar and 4.5 GWh battery storage project, tipped to be the world's largest integrated solar and battery facility.

What is the impact of a solar power project in the Philippines?

The project has strong sustainability credentials, notably because of its impact in decarbonising the Philippines' energy system (SDG7), but also by generating power to support economic development (SDG8), creating more than 10,000 new jobs (SDG8), and facilitating local development (SDGs3+4).

What is the Terra solar project?

The Philippines is showing real purpose on the energy transition and no project represents this more than the Terra Solar Project. It will co-locate solar PV with battery storage on a scale the region hasn't seen before, backed by a sizeable PSA, to deliver a stable renewable power supply to the main grid of

Luzon in the Philippines.

What is the world's largest integrated solar and battery storage facility?

As the world's largest integrated solar and battery storage facility, it will cover 35 square kilometres, about four times larger than Sydney's Kingsford Smith Airport.

## Philippines Photovoltaic Energy Storage Project
