Phnom Penh 12v500ah energy storage battery

Overview

Who sells batteries in Cambodia?

We have sold thousands of batteries to individual customers and telecom companies throughout Cambodia. Khmer Solar is a regional distributor for Narada Power Source, the third largest energy storage company in the world, with millions of batteries installed around the globe.

Can battery energy storage be used to power Cambodia's grid?

“The battery energy storage system will showcase how large-scale deployment of innovative technology applications can be used to operate Cambodia’s grid in the future and generate more renewable power.”.

Can solar power be used in Cambodia?

Renewable energy, particularly solar, holds great promise for Cambodia. However, the intermittent nature of solar energy benefits from robust storage solutions to store excess generation and provide power during low solar output periods, like the dry season.

What is a battery energy storage system?

The battery energy storage system supported by the project is capable of storing 16 megawatt-hours of electricity and providing services to help with renewable energy integration, transmission congestion relief, and balancing of supply and demand, among others.

Can solar energy be used intermittently in Cambodia?

However, the intermittent nature of solar energy benefits from robust storage solutions to store excess generation and provide power during low solar output periods, like the dry season. The Cambodian Minister of Mines and Energy, Keo Rattanak, is targeting 70% renewable energy by 2030.

Should Cambodia regulate rooftop solar power?

In March 2023, Cambodia launched the “Principles for Permitting the Use of Rooftop Solar Power,” to regulate rooftop solar installations and ensure “transparency, accountability, and fairness.” Renewable energy, particularly solar, holds great promise for Cambodia.
