

## SolarGrid Energy Solutions

# Photovoltaic energy storage for sale

 **TAX FREE**    

## ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

The image shows a white, rectangular Energy Storage System (ESS) unit. It features a central vertical green stripe with a blue and white octagonal logo in the middle. The letters 'ESS' are printed in green at the top right. At the bottom, there are two yellow warning triangles with black lightning bolts. The unit is mounted on a black base.

## Overview

---

What is energy storage system products list?

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

How does a solar power storage system work?

Store the energy generated by your solar system in powerful battery storage systems. With a power storage system for your PV system, your stored energy is available to you flexibly, regardless of the time of day and weather conditions.

What is a solar power storage system?

A solar power storage system, often called battery storage or solar storage, stores the electricity generated by a solar power system to be released later when needed. This allows solar power to be used at times when the sun is not shining, such as in the evening or on cloudy days.

Why do you need a solar power storage system?

With a power storage system for your PV system, your stored energy is available to you flexibly, regardless of the time of day and weather conditions. In addition, a PV storage system can protect you during power outages, thus making your household more self-sufficient. Surplus solar power can still be fed into the public grid.

What is the best solar storage?

Popular manufacturers and series here are, for example, the SMA Sunny Tripower, Sunny Island or Sunny Boy Storage, Fronius Symo GEN24 Plus, KOSTAL Plenticore Plus or Huawei SUN2000. If you need help choosing the right solar storage, call us or use our contact form.

## Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.
