Photovoltaic power storage extended warranty

Overview

What is PV warranty insurance?

The video is not available. Check out in 140 seconds how you will benefit from our PV Warranty Insurance for up to 30 years. Our PV Warranty Insurance is straightforward and effective: manufacturers protect their ability to pay excessive warranty claims on modules for a period of 25 years (up to 30 years for glass-glass modules).

What is extended warranty?

Extended warranty: The Warranty Period can be extended from beginning of the Warranty Period, at an additional cost to the Customer ("Extended Warranty"). so that Huawei can provide the required services continuously. An Extended Warranty can only be purchased during the warranty valid period.

When does the Smart PV optimizer warranty expire?

The Smart PV Optimizer warranty is available only when the physical layout is correct. The warranty of a battery pack expires when the specified warranty period ends or the electricity capacity reaches the specified EOL capacity, whichever is earlier.

What is Huawei fusion Solar Advanced warranty services?

Advanced warranty services: The services to be provided by Huawei for free during the standard warranty period, only if the related product is connected to Huawei FusionSolar SmartPVMS. If the product is not connected to Huawei FusionSolar, or has been disconnected for over 6 months, the advance warranty shall be void.

What are the warranty conditions and limitations for isitepower-m?

The warranty conditions and limitations for iSitePower-M are the same as those for LUNA2000 series. Subject to notifications published on Huawei support website, or local service policy. During the warranty period, Huawei

provides hotline, remote troubleshooting, online technical support, and multi-channel support.

When can I buy an extended warranty?

An Extended Warranty can only be purchased during the warranty valid period. The warranty period starts from the 90th day after Huawei ships the products.
