

## SolarGrid Energy Solutions

# Poland Krakow outdoor power production company

## Overview

---

Why is Akuo pursuing development in Poland?

By pursuing our development in Poland and in many coal-dependent countries such as Serbia, Croatia and Kosovo, Akuo aims to leverage its presence and knowledge of the region to speed up the energy transition and guarantee a reliable, sustainable and affordable mix for Europe.

Who owns the Krakow-leg power station?

The Krakow-Leg power station began operating in 1970 and provides heating and electricity to the city of Krakow. The plant is operated by the EC Krakow company and was originally owned by the Electricite de France (EdF) group, who sold it to the group PGE in 2017.

Why is the electric power industry important in Poland?

The Electric Power industry in Poland presents several key considerations for potential stakeholders. Firstly, understanding the regulatory framework is crucial, as Poland's energy sector is shaped by EU policies aimed at promoting renewable energy and reducing carbon emissions.

How will Poland's energy industry change by 2050?

We are the leader of changes in the Polish energy industry. According to the Strategy, by 2050, we will be climate-neutral and 100% of electricity supplied to our customers will be green. Our plans include the largest investments in offshore wind assets in the country.
