# **Portugal Base Station Battery Plant 215KWh**

## Overview

---

Will China build a lithium-ion battery factory in Portugal?

Chinese battery manufacturer CALB has confirmed its plans to build a production facility for lithium-ion batteries in Portugal. The factory with an annual capacity of 15 gigawatt-hours is intended to start production in 2028. According to CALB, the investment amounts to two billion euros.

Will CALB build a battery plant in Portugal?

CALB announced on November 3, 2022, that it signed a memorandum of cooperation with the Portuguese government to build its first production site in Europe. The company's battery project in Portugal was planned at an industrial zone near a port in Sines, which is located in the heart of European logistics, a CALB press release said at the time.

Will a new battery factory create new jobs in Portugal?

“Our factory will not only create new jobs, but will also place Portugal at the forefront of the production of batteries for electric vehicles in Europe,” said Liu Jingyu, chairman of the Board of Directors of CALB. Once operational, the plant will have a production capacity of 15 GWh of energy storage.

Why should Portugal invest in a battery factory?

“Our factory will not only create new jobs but will also place Portugal at the forefront of the production of batteries for electric vehicles in Europe,” he highlights. According to CALB, “this strategic investment” aims to “reinforce its presence in the European market for electric vehicles (EV) and energy storage systems (BESS)”.

Is Portugal a key player in the global battery value chain?

Portugal has taken monumental steps in establishing itself as a key player in the global battery value chain. Five major initiatives have been announced recently, marking a transformative moment for the nation’s green energy

ambitions. Here's a roundup of the latest developments:.

Will China invest 2 billion euros in a Gigafactory in Portugal?

China's CALB, one of the world's largest battery makers for electric vehicles, said on Friday it would invest 2 billion euros (USD 2.09 billion) in a gigafactory in Portugal that is expected to start production in 2028.
