Portugal Porto Energy Storage Cabinet Project

Overview

How many energy storage projects will Portugal support in 2025?

Portugal's Ministry of Energy has allocated €100 million to support 43 energy storage projects, scheduled for completion by the end of 2025. These projects were selected from 79 applications under the country's Recovery and Resilience Plan (RRP), with eligible projects able to receive up to €30 million in funding.

How much money will Portugal spend on energy storage projects?

This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding. Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025.

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva.

How can Portugal achieve 80% renewable electricity by 2026 & 85% by 2030?

This initiative supports Portugal's goal of 80% renewable electricity by 2026 and 85% by 2030. In 2024, renewable energy contributed 71% to Portugal's electricity, marking a record 36.7 TWh. The energy storage projects will help stabilize the electricity grid and contribute to a greener, more sustainable energy transition.

Is Portugal the IKEA of energy storage solutions?

Here's where it gets juicy – Portugal is becoming the IKEA of energy storage solutions: Recent data shows Portugal's storage capacity growing faster than pastéis de nata sales at Lisbon's Belém bakery – with projections hitting 2GW

by 2026 .

Will Portugal's green transition boost energy storage by 2026?

(Montel) Portugal's recently elected government presented its legislative programme late on Wednesday, with the green transition one of its strategic pillars, including the launch of a strategy to boost energy storage by 2026.
