## Overview

---

What is an uninterrupted power supply in South Africa?

Sales South Africa: Computer hardware sales. An uninterrupted power supply, also uninterruptible power source, UPS or battery/flywheel backup, is an electrical apparatus that provides emergency power to a load when the input power source, typically mains power, fails. \*Note: A UPS will beep continuously when power is off. This is normal.

Why should you choose PSS distributors Pretoria?

At PSS (UPS) Distributors Pretoria, clients can find a variety of uninterrupted power supply (UPS) systems and accessories designed to safeguard critical equipment and data during power outages or fluctuations. Their UPS units come with advanced features, providing reliable backup power, surge protection, and voltage regulation.

What is an uninterrupted power supply (UPS) system?

An Uninterruptible Power Supply (UPS) system protects electronics and other vital equipment, infrastructure and machinery from unexpected power issues as well as provides short-term emergency backup power during disruptions to the mains electricity supply. HOW DOES A UPS WORK?

What is a Mecer ups 220V / 230V uninterrupted power supply?

Mecer UPS 220V / 230V uninterrupted power supplies. Sales South Africa: Computer hardware sales. An uninterrupted power supply, also uninterruptible power source, UPS or battery/flywheel backup, is an electrical apparatus that provides emergency power to a load when the input power source, typically mains power, fails.

What is a ups power supply?

A uninterruptible power supply or uninterruptible power source (UPS) is an electrical apparatus that provides you with emergency power to a load when the input power source or mains power fails in cases of power outages or load shedding.

What is a 220 volt ups rated?

UPS are rated in VA (Volt-Amps). This is a basic rating for UPS and is the Voltage multiplied by the Amperage the UPS handles. At 220Volts, a UPS that can supply 1Amp would be rated 220VA. This however is not the real power for AC devices because AC power rating requires the power factor to be taken into account.
