Riga Telecom site battery cabinet dropped

Overview

Can cell tower batteries be stolen?

In recent years, telecom base stations and sites all over the world have been suffering from battery theft. Even when the issue is localized to a single site or tower, finding out and potentially replacing these cell tower batteries gets expensive quickly.

Does galooli have a cell tower monitoring solution?

Fortunately, Galooli has a cell tower monitoring solution to address these challenges and avoid traditional pitfalls from standard ineffective deterrents. Galooli's Battery GPS Tracker technology offers a smart and easy-to-use solution that can be integrated with the most common batteries used in the market.

How can a telecom site automation appliance monitor a battery?

Typically the best way to do this is for a telecom site automation appliance to pull the data from DC rectifier controllers at the site. Simple methods of measuring DC circuits are also available. Various forms of battery monitoring are also possible, from simple measurements to interfacing to specialized battery monitoring sub-systems.
