Romanian energy storage vehicle factory price

Overview

How much money will Romania get for battery storage projects?

The financial support in the form of direct grants was announced by the government in November 2022, reported by Energy-Storage.news at time, and will go towards at least 616MWh of battery storage projects. The European Commission has approved a €103 million state aid scheme from the government in Romania for battery storage projects.

Where is Abee building a battery cell factory in Romania?

Belgian company Avesta Battery and Energy Engineering (ABEE) is building a battery cell factory in Romania that will mainly supply cells for the automotive industry. ABEE is investing 1.4 billion euros in the cell factory called Romvolt, which will be located in Galați in eastern Romania.

How much will Romania Invest in a recycling plant?

In a second phase by the end of this decade, another 200 million euros will be invested to build a recycling plant at the site with a capacity of 50,000 tonnes per year. The cells will primarily be supplied to the carmakers Renault-Dacia and Ford, which are also based in Romania.

What type of battery cells will be built in Romania?

There are no details yet on the type of battery cells to be built in Romania. If Dacia is to be supplied, the cells will be very cheap, as the carmaker had recently repeatedly emphasised that it wanted to offer not the best, but the cheapest electric car.

How much is the romvolt battery factory worth?

The investment is valued at EUR 1.4 billion. The Romvolt battery factory in Galați in east Romania will employ 8.000 people, Mayor Ionuț Pucleanu said. The facility worth EUR 1.4 billion will make cells for electric car batteries, the local administration revealed, as reported by domestic media outlets.

How much power does romvolt produce a year?

The Diegem-based company plans a production capacity of 22 GWh per year. Romvolt will supply batteries mainly for the automotive industry – Renault-Dacia and Ford, but also for the stationary storage market, it revealed. The factory is envisaged to be built in the Galați Free Trade Zone in the territory of the city on the Danube, on 60 hectares.
