# **Rome PV Panel Project**

## Overview

---

Enel X won a Europe-wide public tender to supply Aeroporti di Roma (ADR) – operator and developer of Rome Fiumicino and Rome Ciampino airports – with a self-consumption photovoltaic system. Where is Aeroporti di Roma's new solar farm located?

Aeroporti di Roma (ADR) today inaugurated its new solar farm, which instantly becomes one of the largest photovoltaic systems in the world within an airport perimeter. The solar farm is located along the eastern side of Runway 3 at Rome Fiumicino Airport.

Why is Aeroporti di Roma launching a solar farm at Fiumicino Airport?

“Aeroporti di Roma's solar farm at Fiumicino airport represents an important milestone, especially considering the urgent further development in terms of capacity – for an infrastructure committed to energy efficiency and environmental sustainability.

Where is the solar farm located in Rome Fiumicino?

The solar farm is located along the eastern side of Runway 3 at Rome Fiumicino Airport. The new infrastructure was designed by ADR and built by Enel in collaboration with Circet, following a European public tender after which the integrated contract was assigned.
