

**SolarGrid Energy Solutions**

# **San Diego Station Energy Storage System**

## Overview

---

Is there a storage facility in San Diego?

Yes, San Diego has interior storage facilities. They provide extra protection from pests or rodents and often offer climate control. However, you might have to take an elevator or stairs to access your unit. Climate control: San Diego's inland temperatures regularly climb to more than 80 degrees, which can damage heat-sensitive items.

Does SDG&E have battery storage?

Following the expansion, SDG&E's Westside Canal complex will feature 231 MW of energy storage and will be the largest asset in SDG&E's utility-owned battery storage portfolio.

What does SDG&E do?

SDG&E is an innovative energy delivery company that provides clean, safe and reliable energy to better the lives of the people it serves in San Diego and southern Orange counties.

How many megawatts will a new energy storage facility add?

This expansion project will add 100 megawatts (MW) of energy storage capacity to the existing 131 MW facility and is projected to be fully operational by June 2025.
