## Overview

---

How much solar power will Seoul have by 2022?

Seoul's metropolitan government plans to deploy 1 GW of solar photovoltaic power for residential and municipal buildings. By 2022, every public building and one million homes in the city are set to be solar-powered, thanks to the Solar City Seoul project.

How much solar power does Seoul have?

By the end of 2018, 98 MW of solar capacity was installed on public buildings, with a goal of 244 MW by 2022. Seoul is the first city in South Korea to develop standards in an ordinance on rents of municipal sites to private solar power generators.

How can solar power be used in Seoul?

Seoul is also finding innovative ways to increase solar capacity, such as renting unused municipal land to private power generators and cooperatives for larger-scale PV power generation. Seoul has also made installation of solar PV systems mandatory for public buildings through the Seoul Environmental Assessment Standards and Green Building Code.

What is Solar City Seoul?

Solar City Seoul's target and action plan were jointly developed by the city government and the Citizens Committee on One Less Nuclear Power Plant, which consists of the Seoul mayor, scholars, researchers, civic groups, businesses, and other experts who participate in Seoul's energy policy development and implementation.

Does Seoul have a solar PV system?

Seoul has also made installation of solar PV systems mandatory for public buildings through the Seoul Environmental Assessment Standards and Green Building Code. From schools to parking lots, Seoul is working with every

division related to municipal infrastructure to install solar PV systems on all available municipal sites.

Where can solar power generators be found in Seoul?

Building a “solar city” Solar power generators can now be found all throughout Seoul—and it all began with SMG’s creation of the Seoul Sustainable Energy Action Plan.

## Seoul Solar Power Supply System

### Seoul Energy Corporation has launched Seoul Solar Centers ...

Mar 12, 2018 · Seoul Energy Corporation has launched Seoul Solar Centers in 5 regions, providing support from installment to post-management of solar generators.
