

# **Sf6 circuit breaker in hindi in Sudan**

## Overview

---

Can a SF6 arc be quenched?

The arc can be quenched using various techniques and mediums. The SF6 circuit breaker is one of the many types of circuit breakers that uses the SF6 gas as the arc quenching medium to safely break the high voltage circuit.

What is an SF6 Circuit Breaker?

What is an SF6 Circuit Breaker?

What is SF6 circuit breaker used for?

33kV to 145kV Outdoor SF6 Circuit Breaker is extensively used for protecting overhead lines, motor, distribution transformer, and rapid auto reclosing. SF6 Circuit Breaker is made by well known international vendors following strict industry parameters of the industry using sophisticated techniques and quality tested materials. Product Details:.

What is a sulphur hexafluoride (SF6) circuit breaker?

A circuit breaker that uses high-pressure sulphur hexafluoride gas as arc extinction medium is called Sf6 (sulphur hexafluoride circuit breaker). Sf6 gas has high dielectric strength and excellent arc quenching property.

What is SF6 CB?

The operation of SF6 CB is noiseless. SF6 gas is non-toxic in its pure state. SF6 gas is non-flammable, thus no chance of fire hazards. Since its operation is flawless, it requires less maintenance. Disadvantages The decomposed SF6 is toxic. SF6 is an expensive gas so these circuit breakers are costly.

Why are SF6 circuit breakers so expensive?

SF6 is an expensive gas so these circuit breakers are costly. Leakage of SF6

from the joints must be continuously monitored. It requires special transportation and maintaining the quality of gas. The SF6 is heavier than oxygen and can cause difficulty in breathing. Recombination and reconditioning of the SF6 gas requires additional equipment.

What is SF6 circuit breaker arcing contact?

Like other circuit breaker viz. Vacuum Circuit Breaker, Air Blast Circuit Breaker etc., SF6 Circuit Breaker has fixed contact as well as moving contact. These fixed and moving contacts are known as MAIN CONTACT. There exists one another contact which is known as ARCING CONTACT. Arcing Contact is part of fixed contact.
