Single phase breaker factory in Us

Overview

What is a \$70 million transformer factory?

The \$70 million Mexico transformer factory aims to address the need for single-phase, padmount distribution transformers and bring 350 jobs to the region, the release stated.

Does Hitachi energy have a transformer factory?

Hitachi Energy announces planned construction of a distribution transformer factory in Reynosa and expansions to transformer factory in South Boston as well as high-voltage switchgear and breakers factory in Mount Pleasant. Hitachi Energy plans to invest an additional \$155 million to expand its manufacturing capacity in North America.

How much money has a transformer factory invested in North America?

The investments in North America include \$70 million USD in the construction of a new distribution transformer factory in Reynosa, Mexico alongside an additional investment of over \$25 million USD to expand its South Boston, Virginia transformer factory, in the US.

What are Hitachi's plans for a new transformer factory?

The plans include \$25 million to expand Hitachi's Virginia transformer factory, \$60 million to expand its Pennsylvania high-voltage switchgear and breakers factory and \$70 million to construct a distribution transformer factory in Reynosa, Mexico.

Why is Hitachi investing \$25M in a South Boston transformer factory?

More than \$25m is being channelled into expanding the South Boston, Virginia transformer factory to boost the production of large distribution transformers, a move that will create 100 jobs. These developments are part of a broader investment strategy by Hitachi Energy to augment transformer capacity both regionally and globally.

What's going on with a new distribution transformer factory?

The strategic move includes building a new distribution transformer factory in Reynosa, Mexico, and expanding existing facilities in South Boston, Virginia and Mount Pleasant, Pennsylvania. The company's order backlog has soared, more than tripling since 2020, with the US market playing a significant role in this growth.
