# Smart Solar PV Site in Colombia

## Overview

---

What is the largest PV project in Colombia?

Once fully operational, it will be the largest PV project in Colombia. Enel Colombia has installed the last solar panels for the 486.7 MW "Guayepo I & II" solar park.

What is the largest solar project in Colombia?

Once operational, the 486.7 MW solar park in Colombia will be the largest PV project in the country. The project is already delivering energy to the National Interconnected System as part of a testing phase.

Will Enel install solar panels at a 486.7 mw 'guayepo & II' solar park?

Enel has finished installing PV modules at the 486.7 MW "Guayepo I & II" solar park in Colombia. Once fully operational, it will be the largest PV project in the country.

Which company has installed the last solar panels for 'guayepo I & II'?

Enel Colombia, a unit of Enel Green Power and part of the Enel Group, has installed the last solar panels for the 486.7 MW "Guayepo I & II" solar park.

How much waste will a 10 MW solar site produce?

European industry association PV Cycle estimates that a 10 MW solar site will eventually produce 700 tons of waste material.
