# Solar photovoltaic panel monocrystalline 12V24 battery

## Overview

---

Which solar panels are suitable for 12V/24V battery charging?

Visit us for monocrystalline, polycrystalline, amorphous solar panels 5-210W with/without frames, for 12V/24V battery charging.

What is a monocrystalline solar panel?

A monocrystalline panel is a flat black single solar panel. You can easily identify them by their corner-cut, square-shaped silicon wafers. As the name suggests, these solar panels are built with a single silicon crystal. This crystal is brought into this shape via several steps.

Which PV solar panels are available?

Our rigid pv solar panels are available in 12V and 24V, and in polycrystalline, monocrystalline technologies. We supply solar panels from all the main manufacturers such as Sharp, Kyocera, LG and Yingli, and we are proud to be distributors for ICP and Inprosolar.
