

## SolarGrid Energy Solutions

# Solar power satellite factory in Netherlands

## Overview

---

What does a consortium of Dutch solar companies do?

A large consortium of Dutch solar companies aims a leading position in the solar industry in Europe. The companies joint forces in SolarNL. The aim is to build several plants in a few years, building on ambitious innovation programmes. In doing so, the companies are working closely with research organisations.

Can the Netherlands be a leader in the European solar industry?

By taking concrete action now, the Netherlands can be at the forefront of the European solar industry, which will provide a crucial economic and strategic advantage on the long term. The province of Noord-Brabant is bringing back large-scale solar industry to the Netherlands. Goal: a 2 GW factory by 2027-2028 with new solar technologies.

What is solarnl?

SolarNL is a thriving ecosystem that elevates the Dutch solar PV industry to new levels of innovation and economic impact. Building on our well-established solar industry, SolarNL unites leading PV scientists through SolarLab, fostering close collaboration with industry experts.

Is Noord-Brabant bringing back large-scale solar industry?

The province of Noord-Brabant is bringing back large-scale solar industry to the Netherlands. Goal: a 2 GW factory by 2027-2028 with new solar technologies. Curious about the opportunities for the manufacturing and building sectors?

.

What is discover solarnl?

For business inquiries contact Discover SolarNL, the groundbreaking initiative

led by AMOLF at Amsterdam Science Park, aiming to transform the Dutch solar industry with innovative technologies and sustainable solutions.

What makes a European solar industry unique?

The European Solar industry must distinguish itself by its innovative products: high conversion efficiency and products for large-scale integration of solar technology that do not exist today. The programme links directly to European initiatives such as RePowerEU that aim to strengthen Europe's energy autonomy.
