# **Solar powered house generator in Vietnam**

## Overview

---

Why is solar power important in Vietnam?

As Vietnam continues its rapid economic development, the demand for sustainable and reliable energy sources has never been more critical. Solar power has emerged as a key component of Vietnam's strategy to diversify its energy portfolio and reduce its carbon footprint.

How much solar power does Vietnam have?

According to a 2020 report from the International Renewable Energy Agency (IRENA), Vietnam accounted for a staggering 44% of Southeast Asia's total installed solar capacity. From almost nothing in 2017, the country reached over 16,500 MW of installed capacity by the end of 2020—drawing admiration from investors and policy makers alike.

Why should investors invest in solar power in Vietnam?

The evolution of Vietnam's regulatory framework, designed to stimulate the growth of solar power in the country, align with national sustainability goals, and enhance energy security through the diversification of renewable energy sources, is a promising sign for investors looking to do business in this space.

Why is smartsolar launching in Vietnam?

Amidst a rapidly evolving energy market in Vietnam, the expansion of solar power is driven not only by policy and investment but also by individual initiatives and novel approaches. Kevin Junker, a foreign entrepreneur, recognized this potential and established SmartSolar in Vietnam.

Is Vietnam a leader in Southeast Asia's solar energy sector?

Vietnam has rapidly become a prominent player in Southeast Asia's renewable energy sector. Over the past three years, the nation has experienced an astonishing surge in solar energy development, transitioning from a negligible presence to a regional leader, exceeding the expectations of many experts.

How smartsolar & Kevin Junker are transforming Southeast Asia's green energy sector?

Starting from the humble roof tops of Vietnamese households, Kevin Junker and the SmartSolar app are playing a key role in Vietnam's advancement in green energy within Southeast Asia. Vietnam has rapidly become a prominent player in Southeast Asia's renewable energy sector.
