

## SolarGrid Energy Solutions

# Solar powered portable outlet in Iran

## Overview

---

What type of plug does Iran use?

Iran uses power outlets and plugs of types C & F. Take a look at the pictures below to see what these plugs and power sockets look like: Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug. Commonly used in Europe, South-America and Asia, but also in quite a few other countries.

What are the different types of power plugs in Iran?

In Iran, there are two main types of power plugs and outlets: Type C and Type F. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America, and Africa. Type C outlets can be fit with either Type E or Type F plugs.

Where can I buy a power adapter for Iran?

There are many different types of adapters available on Amazon that can be used in Iran. You can purchase a universal adapter that will fit most outlets in the world, or you can purchase a specific adapter for Iran. → Find travel adapters on Amazon. What Voltage and Frequency Are Used in Iran?

.

Do Iran power plugs work?

Iran power plugs often leave travelers puzzled due to the two-pronged design. Make sure your devices have the right plugs or adapters to fit into Iran socket types. Invest in a good quality universal adapter before you embark on your journey. Universal adapters are versatile and work in most countries, including Iran.

What types of power sockets are there in Iran?

Think of these as the gates to charge up all your trusty gadgets and gizmos. In Iran, these power sockets mainly fall into two categories: Type C and Type F. Type C Sockets: These are the friendly two-pin sockets you'll often come across in Iran. They're a bit like the basic building blocks of power sockets – simple and straightforward.

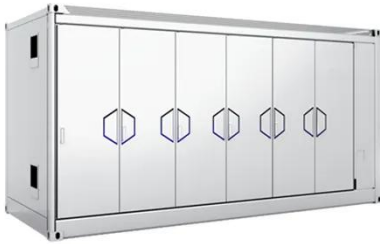

What voltage does Iran use?

Also, the voltage in Iran is the same as in Europe. What Outlet does Iran Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin. These plugs are typically used with devices that have a voltage of 220-240V. This outlet is rated for 2.5 amps.
