Overview

The €700 million (\$763 million) program, run by Spain's Ministry for Ecological Transition and the Demographic Challenge (MITECO), will offer matched-finance worth up to 85% of the cost of energy storage sites. What is Spain's energy storage subsidy plan?

EU approved Spain's €700 million energy storage subsidy plan, enabling Spain to deploy large-scale battery storage with co-financing up to 85%.

What is Spain's energy storage program?

For stakeholders in battery storage, thermal storage, and pumped hydro, this program offers not only financial backing but also long-term stability and political support. Spain has launched a €700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy 2.5–3.5 GW of capacity.

Will Spain be able to deploy large-scale electricity storage?

The European Commission has approved a new aid scheme that will allow Spain to deploy large-scale electricity storage, both in hybridisation with renewable energy facilities and stand-alone and thermal.

How much money will Spain spend on energy storage projects?

Spain's ministry for the ecological transition said on Friday it will allocate EUR 700 million (USD 799.4m) in grants through competitive tendering to support large-scale energy storage projects in an effort to improve grid flexibility and integrate more renewables. Vanadium redox flow battery installed at the Son Orlandis solar farm in Mallorca.

How will Spain increase its energy storage capacity?

Spain has launched an ambitious €700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal energy storage, and

battery systems.

Is commercial and industrial energy storage underserved in Spain?

While Spain focuses on large-scale energy storage projects, commercial and industrial (C&I) energy storage remains underserved – a €2.1 billion untapped market (Wood Mackenzie 2024). Our modular commercial battery storage systems offer: □ EU-Compliant Safety Certifications (UN38.3, CE-EMC, IEC62619) ensuring subsidy eligibility.
